

My capacity checklist

Page 1 of 3 | Read each statement. Mark one blank box to show where you are today. Use Notes for a question or next step.

1. Knowing where AI fits

What I know or can do	Ready to learn	In progress	Ready to go	Notes
I know which review tasks AI can help with.				
I understand which decisions must stay with people.				
I can check an AI answer against the application.				
I know when to stop and ask a person for help.				

Resources: [AI task guide](#) | [2/2/2 framework](#)

2. Writing clear AI requests

What I know or can do	Ready to learn	In progress	Ready to go	Notes
I can write a clear request for one task.				
I can tell the AI which information it may use.				
I can ask the AI to show where its answer came from.				
I can test my request with a made-up application.				

Resources: [Prompt practice](#) | [Workflow prompting workshop](#)

One thing I want to work on: _____

My next step: _____

3. Using a scoring guide

What I know or can do	Ready to learn	In progress	Ready to go	Notes
I understand the descriptions in our scoring guide.				
I can use the guide to score a practice application.				
I can point to the details that support my rating.				
I can discuss different ratings with another reviewer.				

Resources: [Workshop rubric](#) | [Reviewer onboarding](#)

4. Protecting applicant information

What I know or can do	Ready to learn	In progress	Ready to go	Notes
I can recognize sensitive applicant information.				
I know how to check whether an AI tool is approved.				
I can limit what I share to what the task needs.				
I know whom to ask about privacy or a data problem.

5. Responding fairly to applicant AI use

What I know or can do	Ready to learn	In progress	Ready to go	Notes
I understand that an AI detector flag is not proof.				
I can explain what AI help our applicant rules allow.				
I can ask about AI use without assuming wrongdoing.				
I know how an applicant can ask for another review.				

Resources: [Policy lab](#) | [Fair response reference](#)

6. Trying a small change

What I know or can do	Ready to learn	In progress	Ready to go	Notes
I can plan a small test using made-up applications.				
I can keep a record of errors and corrections.				
I can check whether the change helps our work.				
I can explain how we use AI and how people check it.
